International Yoga Day 21st June 2023

Santosh Deemed to be University have organized a Yoga Session on the Occasion of International Yoga Day on 21st June 2023. The event started with Auspicious Lamp Lighting and Saraswati Vandana by our Honourable Yoga Trainers from Bhartiya Yog Sansthan and Leadership Team. The event was joined by Director IQAC Dr. Dakshina Bisht, Dean Research, Dr. Jyoti Batra, Dean Student Welfare Dr. Rajiv Ahluwalia, 5 Faculty Members, more than 50 students and 8 Non-Teaching Staff. The Yoga trainers demonstrated different Aasna including Surya Namaskar. They explained the importance of Yoga and each Aasna and encouraged the participants to do Yoga in their daily lives to improve the lifestyle. The event was summed up with Vote of Thanks given by Dr. Rajiv Ahluwalia and followed by Tea.

Department of Orthodontics and Dentofacial Orthopedics

Date-15.05.2023

Department of Orthodontics and Dentofacial Orthopedics, Santosh Dental College successfully organised World Orthodontic Health Day with a lot of fanfare at our institution. Various events were organised for both Undergraduate & post-graduates students of all the branches.

Date: 15.05.23

Chief Guest - Dr. Sanjay Labh, Secretary, IOS

Participants – 47

Timing – 9 am to 4 pm

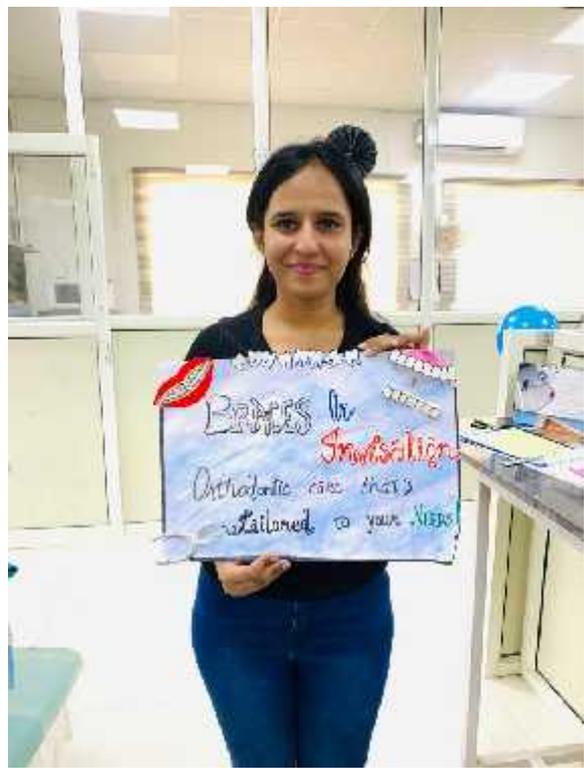

Activities conducted –

- 1) Wall Painting
- 2) Slogan competition
- 3) Essay writing competition
- 4) Wire bending competition
- 5) Smile Contest

It was a fun-filled event and students across different years participated in the event with wholesome enthusiasm and showcased their skills and talent.

DEPARTMENT OF BIOCHEMISTRY WORLD MALARIA DAY CELEBRATION

Venue: Maharaja Hall

Date & time: 26th April 2023, 9 - 10 AM

Report on Role play Activity Organized on World Malaria Day by MBBS Students Batch 2022-2023.

Introduction: On the occasion of World Malaria Day, MBBS students of batch 2022-2023 organized a role-play activity to create awareness about the prevention and treatment of malaria. There were 2 groups comprising of 10 -12 students each from MBBS batch that performed the play. The objective of this activity was to educate people about the causes, symptoms, and prevention of malaria. The activity was conducted in maharaja hall, and faculties of department of Biochemistry, Pathology and IHBT also attended the program. It was followed by a poster making competition by BDS 2nd year students.

Activity: The role-play activity was conducted by one of the MBBS students, who acted as a doctor working in a malaria-prone region. The student gave a presentation on the importance of preventing and treating malaria, and encouraged the audience to take preventive measures to protect themselves and their communities. The presentation covered various topics, including the causes of malaria, symptoms, available treatments, and prevention methods.

During the presentation, the audience actively participated by asking questions and sharing their experiences with malaria. The MBBS student addressed each question with detailed explanations, and also shared information about the latest research on malaria prevention and treatment.

The role-play activity was interactive, with the use of visual aids such as images and videos to help the audience understand the importance of preventing and treating malaria. The MBBS student also used case studies to demonstrate the real-life impact of malaria and how it can be prevented and treated.

Outcome: The role-play activity was successful in creating awareness about the prevention and treatment of malaria. The audience was able to understand the causes, symptoms, and available treatments for malaria. The interactive nature of the activity helped to engage the audience and make the session more effective.

Conclusion: In conclusion, the role-play activity organized on World Malaria Day by MBBS students of batch 2022-2023 was a great success. The activity helped to create awareness about the importance of preventing and treating malaria, and encouraged people to take preventive measures to protect themselves and their communities. The interactive and engaging nature of the activity made it a memorable and effective experience for all those who attended. The 2 skits were highly appreciated by students as well as faculty. The 2 groups were awarded certificates, which was followed by vote of thanks by Dr R N Gupta. IHBT & Department of Pathology organized a poster making competition for students of 2nd year MBBS. There were 15 entries for poster competition out of which 2 prizes were awarded, 1st and 2nd. This too was followed by a group photograph. Overall, it was a highly informative session.

The poster features the Santosh Deemed to be University logo on the left, a 25th anniversary logo in the center, and the G20 India 2023 logo on the right. Below the logos, it states 'Department of Biochemistry, Pathology and Immuno-hematology organizing'. The main title 'Role Play activity World Malaria Day' is in a large red box. Below that, it provides the date '26th April 2023 | Time: 9am-10 am' and the venue 'Maharaja Hall, Santosh Medical college, Ghaziabad (Delhi NCR)'. A 'PROGRAM SCHEDULE' section lists the activities and speakers.

DEPARTMENT OF PATHOLOGY

World Health Day - 08.04.2023

Name of Workshop: World Health day update and seminar on 08/4/23
on the theme Health For All by department of Pathology ,
Immunohematology and Biochemistry

Venue: LT 2 Santosh Medical college Ghaziabad

Date /Month/Year: 8/4/23

Organising Unit /Collaborating agency: Department of Pathology,
Immunohematology, Biochemistry

Number of participants- Faculty/Students 150

Expenditure incurred if any: nil

Program Details:

Preface: Department of Pathology, Immunohematology, Biochemistry

conducted PG and Faculty talk on World Health Day on the theme Health For ALL
for MBBS and BDS students.

The talks covered a wide spectrum including a talk on Strengthening Primary Health care for achieving the goal of Health For All and various non communicable disease like diabetes and hypertension.

Execution: The programme was opened by welcoming the students and faculty s by Dr Mayurika S Tyagi Associate Professor Immunohematology & Dr Swati Singh associate professor pathology.

The different talks given included

Welcome Address and Introduction "Health For All "	Dr Mayurika Tyagi Associate Professor IHBT
Strengthening Primary Health Care to Build resilient systems	Dr Luna Sinha Assistant Professor Biochemistry
Non Communicable Disease Preview of Risk Factors	Dr. Anish Patel JR 2 Pathology
Diabetes -Current Scenario	Dr Renuka JR1 Biochemistry

ABCs of Diabetes (Basics update).

Hypertension -A Silent Killer

Dr. Swarnim Baidya JR1 Pathology

Dr. Hena Kausar JR2 Pathology

The talk and seminar was followed by a quiz for the students

Dr Swati Singh concluded the programme and thanked the audience .

Tangible Outcomes: seminar and update on World Health DAY with a focus on primary health care system and varioud non communicable disease .

World Bipolar Day – 30.03.2023

Preface:

The department of Psychiatry, Santosh Deemed to be University, Ghaziabad, NCR Delhi organised World Bipolar Day on 30.03.2023 (Thursday) at 10:00 AM – 11:00 AM.

Importance of World Bipolar Day

Support is vital

One in five individuals with bipolar disorder hurt themselves or commit suicide. On World Bipolar Day, we offer these individuals assistance as they navigate the difficulties of their condition and offer them hope for a better future.

Timely diagnosis is crucial

Despite how widespread it is, many people are unaware that they have bipolar disorder. Finding out about the condition and receiving a prompt diagnosis helps stop it from getting worse.

They are not alone

On World Bipolar Day, people with this condition have the chance to interact with others who share their symptoms and gain access to information and treatments that can enhance their lives.

Bipolar Disorder

Every year on March 30, World Bipolar Day is marked in honour of Dutch painter and one of the most significant figures in Western art history, Vincent van Gogh. His mental illness and creativity were correlated, and bipolar disorder was later identified as his ailment. Bipolar disorder has a significant impact on mood and can cause depressive and euphoric episodes, which can be detrimental to one's relationships, productivity, and health. By international cooperation, World Bipolar Day promotes education about bipolar disorder and encourages its dissemination.

History of World Bipolar Day

The International Society for Bipolar Disorders (ISBD), in collaboration with the International Bipolar Foundation (IBPF) and the Asian Network of Bipolar Disorders, created World Bipolar Day (ANBD).

The diagnosis of bipolar disorder stretches back to ancient Greece and is not a contemporary problem. The medical writings of Hippocrates, a man who is frequently considered to as "the father of medicine," contain the oldest reference of the mental condition. He published his research on depression and mania, two completely different feelings.

The 19th century saw the development of the present conceptual understanding of bipolar illness.

Jules Baillarger, a French neurologist, and Jean-Pierre Falret, a French psychiatrist, each gave their own independent descriptions of bipolar disorder to the Académie de Médecine in Paris in 1854. Although the name "bipolar disorder" had not yet been developed, Baillarger and Falret referred to the condition as "folie à double forme," which is French for "dual-form insanity," and "folie circulaire," which is French for "circle insanity."

Since its founding in 1999, the International Bipolar Foundation (IBPF) has conducted research on bipolar diseases and assisted those who are affected by them. We underestimate the prevalence of bipolar disorders. While the affected person is genuinely experiencing waves of mania or depression, extreme mood swings sometimes go unreported or are written off as temperamental problems. Because the disorder has an effect on one's capacity to operate, people with this mental illness lead lives that are disrupted. Thankfully, therapy options include prescription drugs and in-depth counselling.

Causes of Bipolar disorder

It is unclear what specifically causes bipolar disorder. According to experts, there are a number of elements that interact to increase a person's risk of developing it. Several physical, environmental, and social elements are thought to be involved in these.

Genetics

Since that bipolar disease appears to run in families, heredity is assumed to be a contributing factor.

A person with bipolar disorder has a higher risk of passing it on to their family members. Yet bipolar disorder cannot be attributed to a single gene. Rather, it is believed that a number of genetic and environmental factors serve as triggers.

Triggers

The symptoms of bipolar disorder are frequently brought on by a difficult setting or situation. Some instances of stressors include: physical, emotional abuse that causes a relationship to end the passing of a loved one or member of a close family

These kinds of major life events might result in depressive episodes at any point in a person's life. A trigger for bipolar disorder could be: a bodily ailment, disruptions in sleep, daily issues that are too big to handle, like issues with money, employment, or relationships.

Chemical imbalance in the brain

Bipolar disorder may be linked to chemical imbalances in the brain, according to some studies. Neurotransmitters, such as noradrenaline, serotonin, and dopamine, are the substances in charge of regulating how the brain works. According to some research, a person may have some bipolar illness symptoms if there is an imbalance in the levels of these neurotransmitters.

Collaboration:

Name and Designation of Speakers:

1. Dr A. K. Seth (Prof & HOD Psychiatry)
2. Dr Brijesh Saran (Associate Prof Psychiatry)

Attended by Junior Resident Doctors from department of Psychiatry & paramedical students of Santosh Deemed to be University.

Execution:

1. PPT presentation about the DSM-5 Diagnostic criteria of Bipolar Disorder and 7 Manic Symptoms were discussed in detail.

2. one hour Lecture was taken with audio visual display by each speaker

3. Hands on demonstration of ophthalmoscope use on patient with dilated pupil done with participation of psychiatry resident doctors.

Aggarwal, Dean Medical, Santosh Deemed To Be University. The programme then started with the first speaker Dr Shivani Bansal, professor of medicine, as she explained the role of women and highlighted achievements made by women, but also an opportunity to become be er informed and collaborate and brainstorm about the path forward. The next session was a panel discussion and the topic for discussion was "challenges faced by working women". The panellist for the session was Dr Alpana Agarwal, Registrar, Santosh Deemed To Be University, Dr Rani Shrivastava (Professor Clinical Psychology), Dr Jyo Batra (Professor, Biochemistry & Dean Research), Dr Manisha Gupta (Professor& Head, Obstetrics & Gynecology). In the panel discussion, they explained that today the world recognizes and celebrates the women and girls who are championing the advancement of transforma ve technology and digital education. A gender-responsive approach to innova on, technology and digital education can increase the awareness of women and girls regarding their rights and civic engagement. There was also discussion about the there is a recent increase in health issues among women, partly due to lifestyle choices and partly due to a lack of knowledge. Women and girls in many parts of the world face the risks of unintended pregnancies, and sexually transmi ed infec ons including HIV and cervical cancer, malnutri on, depression, and respiratory infections, amongst other risks. Digital health and information platforms can improve health outcomes for women and girls and enhance their autonomy and privacy - they enable informed health decision-making, improve access to health services, therapies, and medicines, and increase awareness about women's rights, including sexual and reproducve health and rights.

There was a lecture on "Anemia-A Neglected Epidemic" by Dr Sonakshi and Dr Rashmi Mishra (Assistant professor, Medicine) which was chaired by Dr Neelima (Professor, Obstetrics & Gynaecology) and Dr Sarita Aggarwal (HOD, Ophthalmology). Another small lecture on Anemia therapeu cs was delivered by Professor & Head, Medicine, Dr. Ashok Kumar, in which he described the injectable Iron therapy for Iron Deficiency Anemia. Two Beau ful dance performances showing women empowerment were done by the students of the Department of B. Sc. Clinical Nutri on & Diete cs which were well appreciated by all the Guest & a endees. The programme was a ended by 100 people approx.

The message conveyed was what is equity and equality and how to have them along with accepting diversity, differences, and various discrimination.

Event Report

TITLE - WORLD RARE DISEASE DAY 2023

Preface:

Rare Disease Day is a globally-coordinated movement on rare diseases. It is observed on 28th February and focuses on working towards equity in social opportunity, healthcare, and access to diagnosis and therapies for people living with a rare disease. Theme for this year "Share your colors: Show Your Stripes" aims at encouraging and motivating patients.

Program:

Department of Dermatology organized an online CME and Awareness Program on the occasion of World Rare Disease Day on 28th February, 2023, 02:30 PM - 03:10 PM at Santosh Hospital, Ghaziabad.

Execution:

Dr. V. K. Garg (Professor & HoD) initiated the session and introduced this year's theme "Share your colors : Show your Stripes". Sheraun Karira (Junior Resident) discussed about Cutaneous Mosaicism, Management of Neurofibromatosis and Tuberous Sclerosis. Dr. Gulshant Panesar (Assistant Professor) talked about Congenital Epidermolysis Bullosa. Dr.Srishti Agrawal elaborated on the rare forms of Congenital Ichthyosis. Finally, Dr V. K. Garg took up questions from the audience and concluded the session.

Tangible Outcomes

It was a very informative session with good audience participation, making it a successful event.

National Youth Day -2023 Celebration

University Reception Area, Santosh Deemed to be University, Ghaziabad

Date - 12/01/2023

Time: 10:00 A.M. - 11:00 A.M.

Preface: Central Research Facility (CRF) and Santosh Startups Forum (SSF) in collaboration with Institution's Innovation Council (IIC) of Santosh Deemed to be University, celebrated National Youth Day on 12th January 2023.

Objectives: January, 12 marks the birthday of Swami Vivekananda and is celebrated as National Youth Day countrywide. It was an IIC celebration activity as guided by MoE's Innovation Cell. The main objective was—

-) To promote rational thinking among the youth, believed to be the future of the country.

Execution:

On this occasion a Youth March was organised from Santosh Deemed to be University reception area to the Santosh Dental College and Hospital premises. The March was followed by a Street Play where undergraduate students from 2022-23 batch, depicted the importance of innovation and entrepreneurship and beautifully presented how working on a startup idea can change the lives of modern youth.

A poster making competition was also organised on the theme; **YOUTH: Idea & Innovation.**

Participants and winners were felicitated by appreciation certificate.

Dean Research; Dr.Jyoti Batra, IQAC Director; Dr Dakshina Bisht, Dr Neeraj Grover, Dr Shaktibala, Dr.Neeti Mittal, Dr.Sanjeev Tomar, Student Members of the Council, along with faculty from Santosh Medical and Dental College were also present at the event. More than 200 medical and Dental students from the University enthusiastically participated to celebrate & witness the power of idea, innovation and youth.

Number of participants: 200+

Organized By: Central Research Facility and Santosh Startups Forum (SSF), in collaboration with the Institution Innovation Council (IIC) Santosh deemed to be University

Minutes of Celebration of National Energy Conservation Day 2022 in LT2 Santosh Deemed to be University on 14th Dec at 2:00 PM to 2:30 PM

Topic : Celebration of national energy conservation day

The National Energy Conservation Day is celebrated every year on 14th December 2022. The purpose is to showcase the achievements of the nation in energy efficiency and conservation. This occasion has been celebrated since 1991 when is led by the Ministry of power. This day is celebrated to raise awareness regarding the conservation of energy as it is the best way to have a greener and brighter future.

Objective: The day focuses on making people aware of global warming and climate change and promotes efforts towards saving energy resources. It also highlights the achievements of the country in the fields of energy efficiency and conservation.

There was an event held on 14th December 2022 at 2: 00pm by Central Research facility and Institution Innovation council in association with Santosh Startups Forum, to celebrate National Energy Conservation day. The event was arranged in LT 2, Santosh Deemed to be University.

The event started with Ms.Indu Rani introducing IIC team members to all the attendees of the event who were MBBS,BDS and BPT students of various batches. She enlightened the fact that IIC is guided by Ministry Of Education. They've created these IIC centers so as to encourage and incubate startup ideas.

Followed by Dr. Sanjeev Tomar welcoming the chief guest of the event, Dr.Sumita Giri (HOD & Professor Endodontics) and Dr.Neeraj Grover (HOD Oral Pathology). Dr. Sumita Giri interacted with the students and briefed about efforts needs to be made to ensure that energy is used efficiently by either using less energy for a particular constant purpose – like switching off lights and fans when not being used – or reducing the use of a particular service that uses energy – like driving less and using public transport instead.

She also told students that energy conservation is a conscious, individual effort, and at a macro level, it leads to energy efficiency and the different forms of energies and explained how our mental energy is affected by our day today lifestyle. As per the theme of the event Dr. Sumita enlighten the students about the importance of Engery and how differently everyone perceives the concept of energy. She further added the usage of energy to one's benefit and how we can create our own positive Aura.

Moreover it was an informative and effective event. The event was also graced with the presence of dental academic coordinator **Dr. Neeraj Grover** sir. He praised the efforts of IIC and said that end goal of energy conservation is to reach sustainable energy.

The program concluded with the vote of thanks by **Dr. Sanjeev Tomar** sir. He lauded the efforts of

Santosh Startups Forum and IIC & also appreciated the opportunities provided by the university to organize several events and encouraging the students for active participation in upcoming events.

Event Report:

Human Rights Day – 10th December 2022

Preface:

Santosh Deemed to be university (Ghaziabad) organised Human rights Day on 10th May 2022 at Department of Psychiatry on Saturday at 10:00 AM – 11:00 AM.

December 10 is recognized as International Human Rights Day. The Universal Declaration of Human Rights, which fought for the protection of fundamental rights for all people regardless of age, gender, or color, was approved on this day in 1948 by the United Nations General Assembly. The subject for this year, Human Rights, serves as a reminder that every day is Human Rights Day and that these rights are just one of the many principles and values that unite us as a world community.

What about those who experience mental health issues?

In a perfect world, everyone would be treated equally and the Universal Declaration of Human Rights would be the guiding principle, but sadly, many groups are still marginalized in modern society. Despite a special UN resolution that called for the protection, compassionate treatment, and respect of people with mental illness that was passed in the 1990s, people with mental health issues fell under this category. Recent studies actually demonstrate that those who struggle with mental health issues typically face stigma and discrimination as well as some of the greatest human rights abuses in the world.

Mental Health Care Act 2017

The Mental Health Care Act of 2017 (Act No. 10) An Act to Provide for Mental Healthcare and Services for Persons with Mental Illness, and to Protect, Promote, and Fulfill Such Persons' Rights During Delivery of Mental Healthcare and Services and for Matters Connected or Incidental Thereto.

1. The Mental Healthcare Act of 2017 intends to ensure that those who have attempted suicide are given options for rehabilitation from the government rather than being tried or punished for the attempt, thereby decriminalizing the act.
2. The Convention on the Rights of Persons with Disabilities and its Optional Protocol require India to comply with certain international obligations, which the Act aims to do.
3. It is a change from the Mental Health Act of 1987 in that it seeks to empower those who are dealing with mental illness. The 2017 Act acknowledges the agency of those

who suffer from mental illness and grants them the right to make decisions about their health, provided they receive the necessary information.

4. The Act strives to protect the rights of those who suffer from mental illness, as well as their access to care and treatment without prejudice on the part of the government. Additionally, as is the case for the treatment of physical illnesses, insurers are also required to offer medical insurance coverage for the treatment of mental illness.
5. The Mental Health Care Act of 2017 has provisions for both the regulation of the industry and the registration of institutions involved in mental health. In order to prevent anyone with a mental disease from having to travel far for treatment, these measures include the requirement for the building of mental health facilities across the nation as well as the formation of a regulatory agency known as the mental health review board.
6. Electroconvulsive therapy (ECT) is only permitted under the terms of the Act in extreme circumstances, coupled with the use of anaesthetics and muscle relaxants. Additionally, it is now against the law to employ ECT as a treatment option for kids.
7. The 2017 Act outlines the obligations of various organizations, like the police, with regard to people with mental illness.
8. Additionally, the Mental Health Care Act of 2017 pledged to combat stigma surrounding mental illness and included some suggestions for doing so.

Collaboration:

Name and Designation of Speakers:

1. Dr. A.K. Seth (Prof. & HOD Psychiatry)
2. Dr. Rani Shrivastava (Prof & Head Psychology)
3. Dr. Brijesh Saran (Assist Prof Psychiatry)
4. Dr. Parul Gairola (Assist Prof Clinical Psychology)
5. Dr. Anoop Peter (Assist Prof Clinical Psychology)

Attended by students pursuing following courses from BOT, BPT, BOT Interns, 2nd yr MBBS, MBBS Interns, Junior Resident students at Santosh Deemed to be University.

Execution:

1. PPT presentation about the mental health care act 2017
2. one hour Lecture was taken with audio visual display.
3. Quiz was organised about the topic Human rights of person with Mental illness
4. Google Drive web link provided for the details of event for academic purpose and continued learning.

SANTOSH DEEMED TO BE UNIVERSITY

3. TEACHER'S DAY CELEBRATION

Students of Santosh Deemed to be University celebrated Teacher's Day on 5th September 2022. The celebration was attended by Honourable Chancellor Dr. Manoj Goyal, Vice Chancellor Dr. Tripta S. Bhagat, Director Academic Administration Dr. VP Gupta, Registrar Dr. Alpana Agarwal, Dean Academics Dr. Shalabh Gupta, Dean Medical Dr. Alka, Dean Dental Dr Akshay Bhargava, Dean Research Dr. Jyoti Batra, Dean Student Welfare Dr Rajiv Ahluwalia sir, Director IQAC Dr. Dakshina Bisht, all the HOD's and Faculty of Santosh University with utmost joy and happiness. It was conducted in Maharaja hall of Santosh Medical College from 2:00 pm onwards.

The celebration started with lamp-lighting ceremony along with Saraswati Vandana and a dance rendition Ganesh Vandana. Motivating and encouraging speeches were given by our honourable Chancellor and Vice Chancellor.

A poem recitation, dance and song performances by the students created an environment of elation in the auditorium. The students made special requests to the teachers for singing which were sportingly accepted by the leadership and the faculty. There were fun filled games such as antakshari and dumb charades organised for the faculty that made the event successful. This was followed by tea and snacks.

The program was coordinated with the Student Core Committee members and all the efforts were appreciated in the end with vote of thanks by Dean Student Welfare.

30. Doctor's Day- 1.7.22

VENUE: Santosh Hospital, Gharonda orphanage, and Santosh Medical College, Ghaziabad

DATE: 1st July 2022

REPORT

- Doctor's Day was celebrated in Santosh Medical College with a lot of enthusiasm and fervour. On this day, various activities were planned in the medical college and hospital as well as the field practice areas of the Dept of Community Medicine. The event was circulated on the different social networks.
- The health camp was organised in collaboration with Gharonda, a home for underprivileged children.
- The day started with a Nukkad Natak presented by interns and undergraduate medical students in the Santosh Hospital, depicting 'A day in the life of a Doctor'. It dealt with the everyday challenges faced by the doctors including aggression by relatives of patients and how the doctors provide services against all odds. Faculty and other staff members of the hospital applauded the nukkad natak.
- A free health camp was organised on 1st July 2022, in Gharonda which is an orphanage in district Ghaziabad, by Department of Community Medicine, Santosh Medical College, Ghaziabad. A total of 30 children who were between the ages of 3 months to 10 years were examined. Patients requiring advanced treatment were advised to visit higher centre (Santosh Hospital) for

Health camp at Gharonda
