BDS Yearbook 2019-20

FOREWORD

Dr. Akshay Bhargava
Dean Dental

It pleases me greatly to present the second edition of the BDS Yearbook for the batch of 2019-20. This publication follows the pioneering first edition by the batch of 2018-19 and showcases the exceptional talent and dedication of our students.

At Santosh Dental College, we are committed to nurturing well-rounded dental professionals. Our comprehensive education equips students with academic knowledge and fosters their personal and professional development. Extracurricular activities and co-curricular programs play a vital role in this endeavor. They provide opportunities for students to explore their interests, develop leadership skills, and build lasting relationships with their peers.

The creation of this yearbook demonstrates the skills and initiative that our students acquire during their time at Santosh Dental College. The meticulous planning, organization, and teamwork demonstrated by the students involved in this project are commendable. The yearbook serves as a valuable record of their academic journey and showcases their diverse talents. It is a testament to the vibrant and engaging learning environment that we have created at Santosh Dental College.

I am confident that this yearbook will inspire future generations of dental students and serve as a cherished keepsake for the batch of 2019-20. It is a reminder of the unforgettable experiences and friendships that they have formed during their time at Santosh Dental College.

As our students embark on their professional careers, I am confident that they will be well-prepared to make a significant contribution to the field of dentistry. The skills and experiences they have gained at Santosh Dental College will serve them well as they continue to learn, grow, and excel in their chosen profession.

I extend my heartfelt congratulations to the students, faculty, and staff who have made this yearbook possible. Their hard work and dedication have resulted in a truly exceptional publication. I am grateful for their commitment to our college and to the success of our students.

I wish the batch of 2019-20 all the best in their future endeavors. May they continue to strive for excellence and make a positive impact on the world.

FOREWORD

Dr. Rajiv Ahluwalia
Dean Student Welfare

It gives me immense pleasure to present the second edition of the BDS Yearbook for the batch of 2019-20. This endeavor, initiated by the batch of 2018-19, has set a remarkable precedent in our medical college. The first edition of the yearbook stands as a testament to the creativity, dedication, and collaborative spirit of our students. It is a pioneering work, likely the first of its kind in a medical college, capturing the essence of student life and academic pursuits in a visually stunning and engaging manner.

The success of the first edition has paved the way for this second edition, which is a result of the continued hard work and enthusiasm of our students. The Students Council and the Editorial Committee have once again come together to create a yearbook that will be cherished by the batch of 2019-20 for years to come. This yearbook serves as a valuable record of their journey through dental school, preserving memories and experiences that will shape their future as dental professionals.

I commend the students involved in this project for their dedication and commitment. Their efforts have not only created a lasting legacy for their batch but have also enriched the cultural life of our college. The yearbook showcases the diverse talents and interests of our students, from photography and writing to artwork and design. It is a testament to the vibrant and engaging community that exists within our dental school.

I am confident that this yearbook will inspire future generations of dental students to continue the tradition of excellence and innovation. It is a reminder that academic success is not just about achieving high grades but also about developing a well-rounded personality and building lasting relationships. I encourage all students to embrace the opportunities for personal and professional growth that our college offers.

As we look forward to the future, I am excited to see what the next generation of dental students will accomplish. I am confident that they will continue to build upon the legacy established by the batches of 2018-19 and 2019-20.

STUDENTS PROFILE

Dr. Aanchal Rajput

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Tanya, Rishika, Priyanshi, Shruti

Your all time favorite faculty?

Manoj goyal (prosthodontics)
Abhishek singh panwar (oral and maxillofacial surgery)

Which department of dentistry attracts you the most and why?

Oral and maxillofacial surgery

How would you describe your 5 years that spent in this college?

College life in 5 years can't be described in words . Making memories and getting in education. I enjoyed my college life to the fullest. One of the best things about college life is that you get a new experience every day. Along with the college life we went to trip through our college. It was fun and exciting. Can't forget those golden days. College life is best when you have friends we faught, we live, we enjoy, and at the end we collected so much memories. Now college is going to end which is leading to mixed of emotions . It feels exciting but at the same time sad. There will be no lectures , no work, no making of memories with friends. Now it ends here leaving it all behind.

Dr. Abhi Dixit

How would you describe your 5 years that spent in this college?

These five years have been a key part of my life in shaping me professionally and personally, the self discovery, navigating throughout, learnt to balance the responsibilities and I am going to take lifelong memories with me.

Which department of dentistry attracts you the most and why?

Oral medicine and oral surgery

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Two unexpected friends are obviously Jasneet and Ankita, even though we didn't realise how things were flowing on our way, it was really easy going with them, built on those simple and joyful moments. Those laughter sessions, along with tea during the internship, led us to a special and comfortable bond.

Your all time favorite faculty?

Dr. Mayank Singhal and Dr. Chandini Batra were the standout faculties during this journey of mine. Both were incredibly genuine, supportive, and always willing to help and guide us throughout. They have always been welcoming and encouraging for us. Dr. Chandini Batra has left a lasting impact on my learning experience.

Dr. Aakansha Aggarwal

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

I gained so many Friends during these college days. It was like a roller coaster as there were so many ups and downs and fights between us but we solved those and became friends again.

Your all time favorite faculty?

There are so many favorite faculties of mine like Dr. Kanika Mam, Dr. Nidhi Mam, and Dr Tamanna Mam. I like them all bcoz they are always ready to help us and appreciate us.

Which department of dentistry attracts you the most and why?

I love Pediatric Department bcoz i like kids and Dr Nidhi Mam is also my favorite as she is my mentor.

How would you describe your 5 years that spent in this college?

Five years in college was a mix of learning, unforgettable friendships, and plenty of funny moments. In First Year, The excitement of starting something new quickly fades as the reality of anatomy, physiology, and biochemistry hits. In Second Year, Sleepless nights before exams become routine, but coffee and midnight snack breaks with friends keep everyone going. In Third Year, finally we got Clinic Exposure. Stepping into clinics was both thrilling and nerve-racking. In Fourth Year, The real clinical work begins. Serious learning takes place, but there were also some funny moments when you accidentally spray water all over your patient or realize you've been wearing your face mask upside down the entire time. In Internship Year, Cherishing the final year of being together before graduation.

Dr. Akriti Choudhary

How would you describe your 5 years that spent in this college?

Experience cheerful ,unique environment

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Shailshikha ,Himani

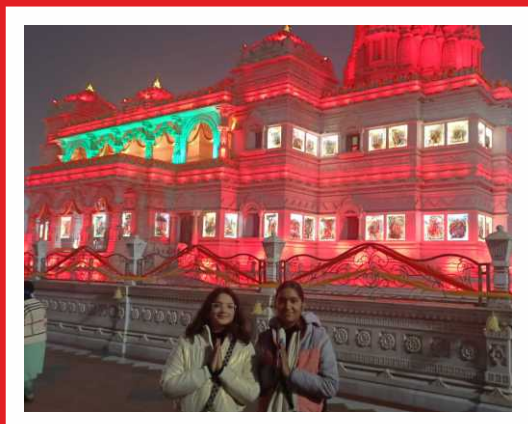

Your all time favorite faculty?

Dr. Kanika

Which department of dentistry attracts you the most and why?

Prosthodontics

Dr. Aman Tyagi

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

In dental college, I unexpectedly became friends with a few classmates. We connected during group projects and study sessions, where our varied perspectives enriched discussions. Late-night study breaks and shared stress during exams also brought us closer. These friendships helped me appreciate different approaches to problem-solving and provided a supportive network during challenging times, making the journey more enjoyable and fulfilling.

Your all time favorite faculty?

My all-time favorite faculty member in dental college is Dr. Mayank Singhal Sir. Their ability to provide constructive feedback while fostering a supportive learning environment made a significant difference in my confidence and skills. They had a knack for simplifying complex procedures, which made them accessible and less intimidating. Their enthusiasm for teaching and genuine care for student progress truly inspired me and created a lasting impact on my approach to patient care and professional development.

Which department of dentistry attracts you the most and why?

The Department of Oral Surgery in dentistry is particularly intriguing because it combines technical skill with the opportunity to significantly improve patients' quality of life. Oral surgeons address complex issues like trauma, tumors, and facial deformities, which can have profound effects on both physical health and emotional well-being. The precision required in surgical techniques, along with the chance to build strong patient relationships during recovery, makes this field both challenging and rewarding. Additionally, advancements in technology and anesthesia continue to enhance patient outcomes, further fueling my interest.

How would you describe your 5 years that spent in this college?

My five years in dental college were a transformative journey filled with rigorous academic challenges and hands-on experiences. I developed a deep understanding of dental sciences, patient care, and clinical skills through comprehensive coursework and practical training. Collaborating with peers and faculty fostered a sense of community and teamwork. The exposure to diverse cases in clinical settings honed my problem-solving abilities and empathy towards patients. While the workload was demanding, the rewarding moments of helping others and gaining confidence in my skills made it all worthwhile. Overall, it was a period of personal and professional growth that shaped my career.

Dr. Ananya Jain

How would you describe your 5 years that spent in this college?

My five years at college were a transformative and amazing journey. I grew academically, the friendships I formed and the experiences I had—both in and out of the classroom—shaped my character and perspective. I am emerging more confidently as an individual. Overall, it was a period of exploration, growth, and lasting memories.

Which department of dentistry attracts you the most and why?

2. Oral and maxillofacial surgery

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

My three musketeers - Shradha, Aman, Pawan
Special mentions Rupal and Saloni

Your all time favorite faculty?

Based on my personal experience I would like to mention the names of Dr. Priyanka mam(perio), Dr. Kanika Bhalla mam and Dr. Chetna Arora mam as apart from passion for teaching , these are the ones who are actually easily approachable , friendly and create a supportive environment which makes it easier for us to seek help.

Dr. Ankita Kumari

How would you describe your 5 years that spent in this college?

Good

Which department of dentistry attracts you the most and why?

Oral Surgery

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Hospital Posting Batch

Your all time favorite faculty?

Dr. Kanika Bhalla

Dr. Ankita Saini

How would you describe your 5 years that spent in this college?

The five years spent at dental college have shaped my personal and professional growth. the knowledge gained and challenges faced have all contributed to my passion for dentistry. I am now ready to embark on a fulfilling career, equipped with the skills and experiences necessary to make a difference in patients lives.

Which department of dentistry attracts you the most and why?

Oral surgery, As this branch of dentistry offers challenges regarding this field and allows us to learn human anatomy to improve our skills

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Building unexpected friendships during your time in college, like BDS, can be a transformative experience. These friendships can lead to unique perspectives, support during challenging times, and lasting connections beyond college.

Your all time favorite faculty?

Dr.Mridul sharma , although it's not so long I know her but After I got to know her ,I found her the most understanding and fair teacher around . Giving her student a space to talk about their problems and queries.

Dr. Anushka Krishnan

How would you describe your 5 years that spent in this college?

Five years were full of ups and downs, with a lot of laughter in between

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

During my college life, I unexpectedly found a true friend in Nixon and Ria. Being away from home there were times when I felt overwhelmed by the distance and challenges of college life. Yet, in those moments they stood by me like a steadfast pillar of support. Nixon has been like my home away from home. I am grateful for the bond we share and for all the moments that have made this journey the best part of my life.

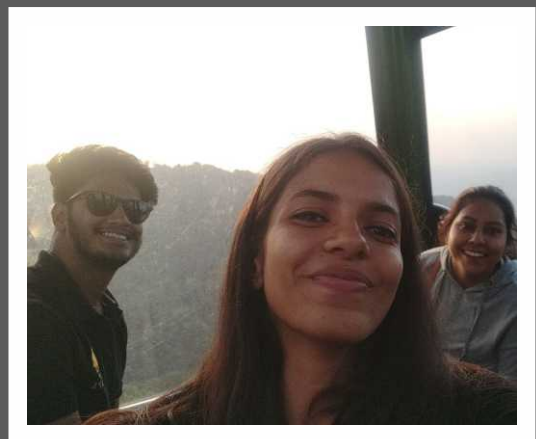

Your all time favorite faculty?

Dr. Navpreet because she always encouraged us to think critically and push our boundaries.

Which department of dentistry attracts you the most and why?

Oral Surgery

Dr. Arfa Jabin

How would you describe your 5 years that spent in this college?

I have faced some tough times here and all i am taking back home is some fruitful lessons which will help in my perseverance. There are people i want to forget completely but by god's grace i have met few whose memories i want to cherish for my whole life. At the end, all is well that ends well.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Most of them were from my parallel batch whom i hadn't thought of having as the best ones in this college and my passout seniors who stood by my side at every instance. my survival kit and happiness to me.

Your all time favorite faculty?

Dr Nidhi, Dr Neeraj, Dr Abhishek(O.S), Dr Saurabh

Which department of dentistry attracts you the most and why?

Orthodontics and Oral surgery

Dr. Chirag Agarwal

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

One of the most unexpected yet wonderful friendships I gained during my time in college was with Shradha. We didn't start out as close friends, but over time, through shared experiences and countless hours in the clinical postings, we bonded deeply. What started as casual conversations turned into meaningful support during stressful times. Shradha's positive energy and reliability made her an invaluable companion, and I'm grateful for the unexpected but lasting connection we developed.

Your all time favorite faculty?

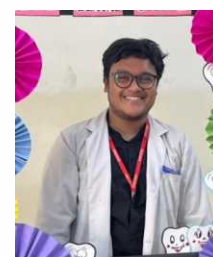

It's hard to pick just one faculty member as my all-time favorite because each one has contributed uniquely to my learning experience. I've been fortunate to learn from a variety of faculty members, and they all played a significant role in shaping my understanding and passion for dentistry.

Which department of dentistry attracts you the most and why?

The department that attracts me the most in dentistry is oral surgery. I find the precision, skill, and immediate impact of surgical procedures fascinating. The ability to diagnose and treat complex cases, often alleviating pain or improving function in a single procedure, is incredibly rewarding.

How would you describe your 5 years that spent in this college?

My five years in dental college were an unforgettable journey of growth and learning, starting with the basics of dental anatomy and gradually moving into clinical procedures. Each year brought new challenges, whether it was understanding intricate theory or practicing hands-on skills with real patients. I vividly remember the first time I treated a patient—nervous, yet excited to finally apply what I'd learned. Along the way, I formed strong bonds with classmates, tackled group projects, and received invaluable guidance from professors who shaped my approach to patient care. It was a time of hard work, balancing lectures, clinics, and exams, but those years gave me the confidence and skills I needed to move forward in my dental career.

Dr. Deeksha

How would you describe your 5 years that spent in this college?

It was the most memorable years of my life where I made new friends I learned new things I enjoyed, laughed made silly jokes, ice tea vada paao breakfast with Anushka. In internship these 7 people make my life worth it as I've face many things in this time and they stood like pillars with me Thank You so much Anushka Rupal, Purbayan, Akansha, Deepshikha, Ria and Rajshree.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Anushka Krishnan, we use to fight a lot in first two years however in the third year when we were allotted in the same clinical posting we got to know each other and from then on we are inseparable.

Your all time favorite faculty?

Dr Nidhi Gupta, Dr Chandani Batra , Dr kanika bhalla these are my favourite faculty. They are the best faculty I've seen in my five years of college they laugh with us they scold us they help us in every manner and specially they guide us like our parents.

Which department of dentistry attracts you the most and why?

Oral and maxillofacial surgery and orthodontics is the department that attracts me because I want to make people confident about their appearance also surgeries attract me the most.

Dr. Deepshikha

How would you describe your 5 years that spent in this college?

5 yrs were amazing. It enriched my understanding in multiple fields

Which department of dentistry attracts you the most and why?

Oral Surgery

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Ankita Saini, Saloni and Nikita

Your all time favorite faculty?

Dr. Aruna Nautiyal, Dr. Abhishek Panwar

Dr. Himani Singh

How would you describe your 5 years that spent in this college?

Spending five years in this college has been a rigorous and transformative journey. It was a period where I developed a strong foundation in my field constantly applying theory to practical. From sitting in a lecture hall to hospital postings. As a class representative taught me invaluable skills in leadership, communication, and organization. Overall it has been like an roller coaster journey to me.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

During my college life the most unexpected friends i gained were Jyotsna, Akriti, Perna. They have been the most surprising and unexpected friends in my college life. They just made my internship year happiest and stress relieved. They were my all time support system.

Your all time favorite faculty?

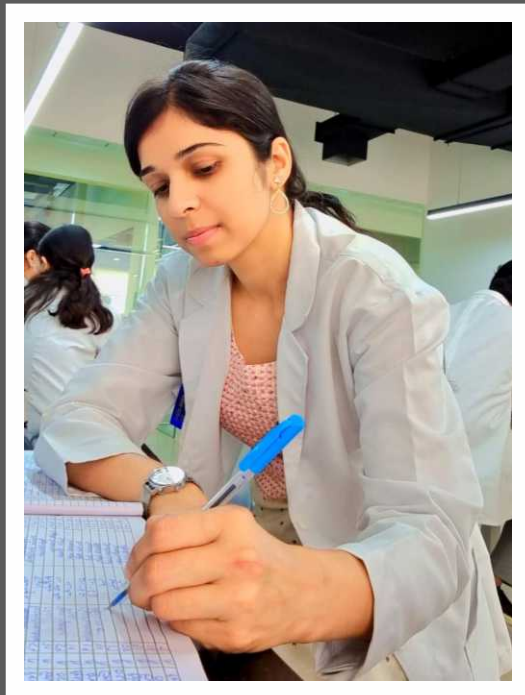

My all time favorite faculties are Dr. Nidhi mam , Dr. Kanika mam and Dr. Natasha mam. Who not only excelled in teaching but also inspired me in every aspects. What stood out most was their easy approachable after the classes and during postings. The way they solves problems and listens with patience is just appreciable. They have played as a best mentors in my college life.

Which department of dentistry attracts you the most and why?

The department of pedodontics attracts me the most. Working with Kids that allows for a significant impact on their dental health from a young age. The joy and energy that children bring to the practice make the work more enjoyable.

Dr. Jainab Usmani

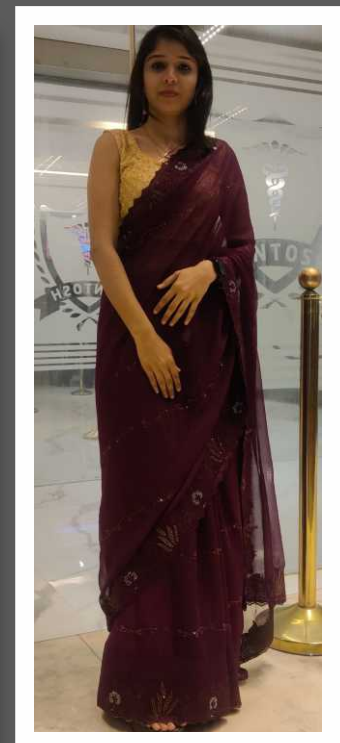

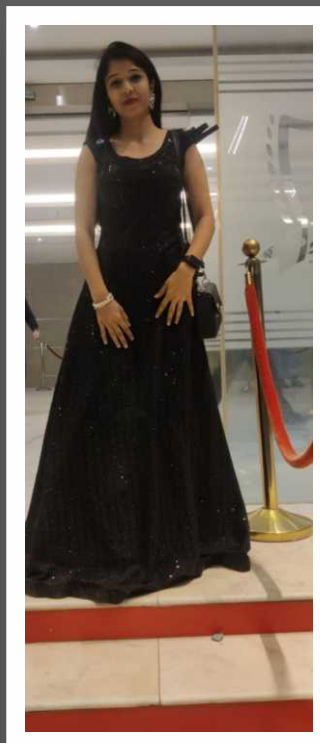

Which department of dentistry attracts you the most and why?

Oral Surgery

Your all time favorite faculty?

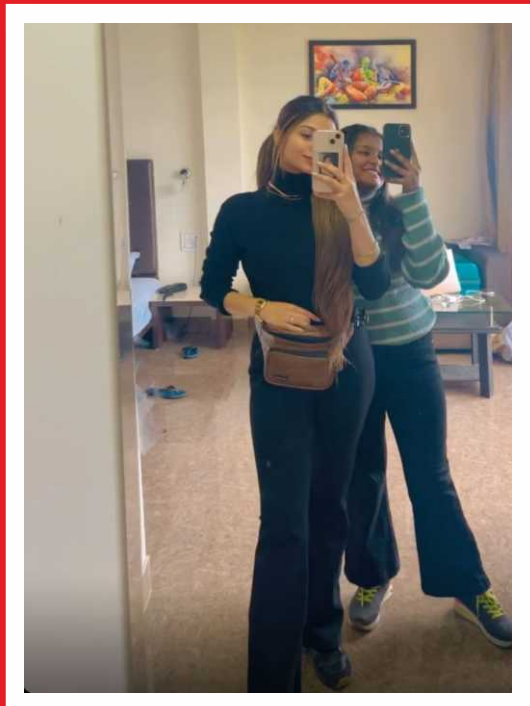

Dr Kanika

Dr. Jasneet Kaur

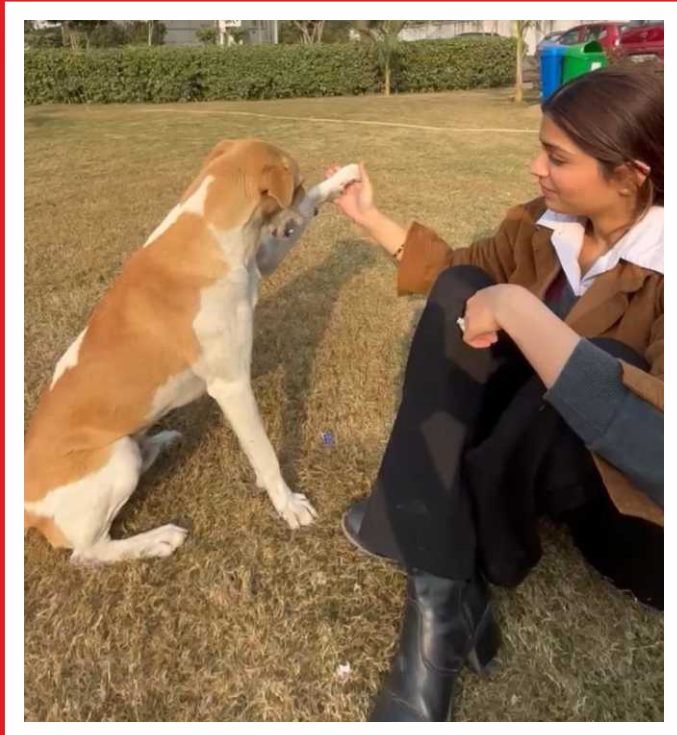

How would you describe your 5 years that spent in this college?

Transition from school to college in itself is a frightening experience for all of us. A new campus to discover, meeting new people, new friends and above all studies! It was all kinda like a new life to settle in. Life here was full of major ups and downs but all went well with the people I was around. From bunking lectures just for a single cup of chai and getting scolded together to study for exams, I never thought I'll be saying this but I am gonna miss this place. All in all this place was full of surprises, fights, care, argument, love and much more than I can ever express, so CHEERS!

Which department of dentistry attracts you the most and why?

Oral surgery, because I find it very fascinating to see and do the major surgeries happening in the department.

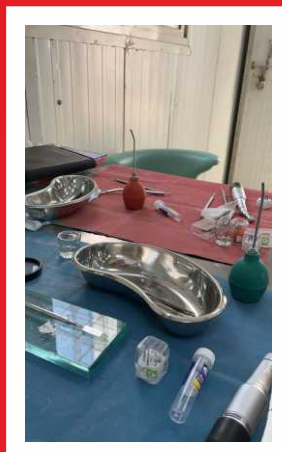

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

I found my unexpected companions during my internship period and I'm very thankful for them.

Your all time favorite faculty?

For me it was Dr. Parvinder from orthodontics dept as she was like a strong pole to hold on when the times were the toughest

Dr. Jyotsna

How would you describe your 5 years that spent in this college?

It was good

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Prerna, Arfa, Himani

Your all time favorite faculty?

Kanika ma'am op department

Which department of dentistry attracts you the most and why?

Oral surgery dept

Dr. Krishna Kanhaiya

How would you describe your 5 years that spent in this college?

Good

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

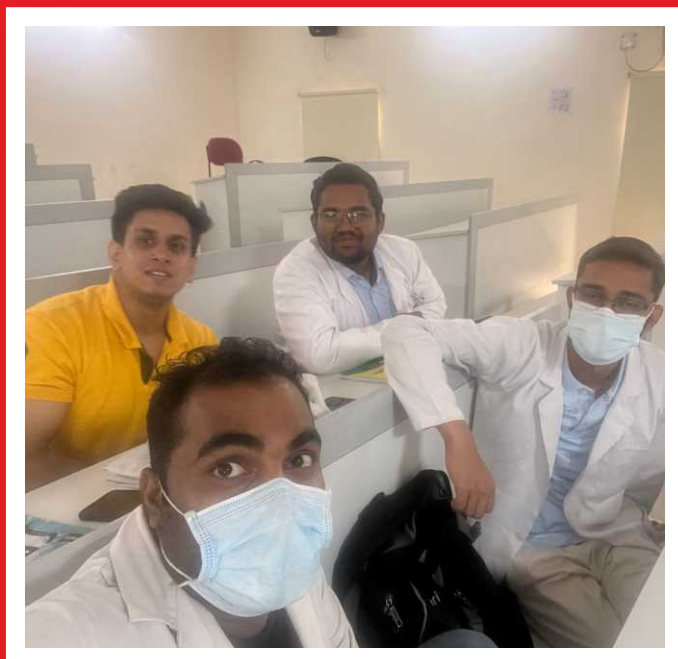

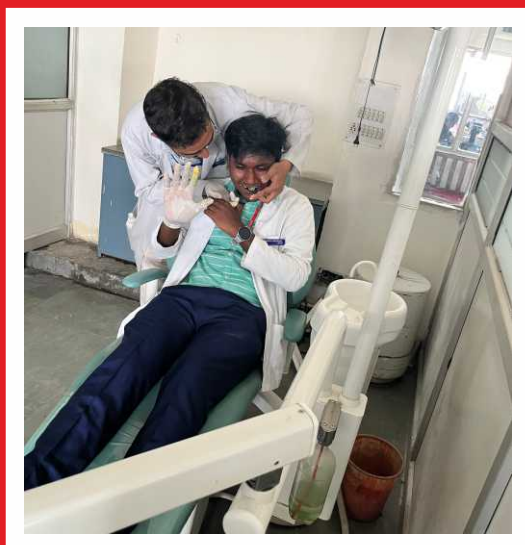

Vinay Kumar

Your all time favorite faculty?

Dr. Bharti Dua

Which department of dentistry attracts you the most and why?

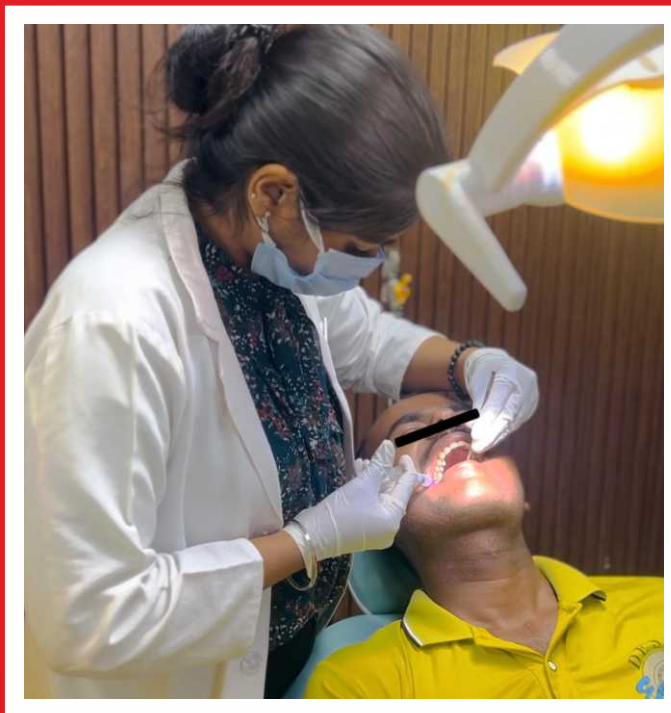

Periodontics

Dr. Lata Baisoya

How would you describe your 5 years that spent in this college?

These five years have been a rollercoaster ride filled with ups and downs, with reality checks that pushed me to believe in myself. Along the way, unexpected friendships turned into family. It's been a blend of sweet and sour memories, valuable life lessons, and a journey that gave me clarity about how life truly works. I've learned a great deal about the practical side of dentistry, significantly improving my skills and patient management. The sense of achievement I feel when patients trust me to handle their treatment has been a driving force throughout my internship.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Rishika, Vanshika, Shubhangi, Tarun, Jyotsna, and many others hold a special place in my heart. These are the ones who stood by my side and motivated me to keep going when things got tough.

Your all time favorite faculty?

Nisha Kaul Ma'am, Sumita Giri Ma'am, Kanika Ma'am, Vishnu Sir, and Mridul Ma'am are my favorites for their unwavering kindness and support throughout my journey.

Which department of dentistry attracts you the most and why?

Oral and maxillofacial surgery, in my opinion, is one of the most advanced branches of dentistry, addressing trauma, oncology, pain management, healing, and much more. It instilled in me a sense of hope, showing that it's possible to heal trauma and restore a person's smile.

Dr. Mukul Sau

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

During my college life, I gained a few unexpected friends who really made a difference. People I never imagined I would connect with like classmates from different backgrounds even someone I initially had disagreement with. This friendships become some of the most meaningful and valuable to me.

Your all time favorite faculty?

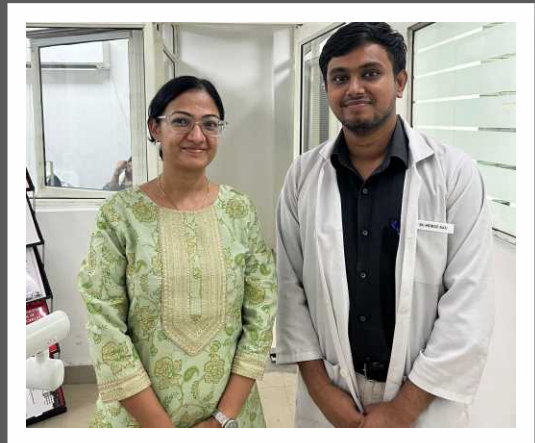

It's hard to pick just one faculty member as my all-time favorite because each one has contributed uniquely to my learning experience. If I have to name someone then Dr. Aruna Nautiyal is one of them, because she has been my mentor, providing guidance and support throughout my academic journey.

Which department of dentistry attracts you the most and why?

Most of the departments are attractive to me, If I have to name one department then it will be Department of Conservative Dentistry and Endodontics, as the clinical works of the department attracts me.

How would you describe your 5 years that spent in this college?

It was an wonderful journey with ups and downs. Some learning experience, some friends and some faculties have created an memorable college life for me.

Dr. Nemisha Sharma

How would you describe your 5 years that spent in this college?

I have bloomed into a more confident, conscious, and sensible being. This place brought out the best in me, even the traits i never knew I had. I would never forget my year as the President of the Council, which honed my leadership skills. COVID Lockdown, college trips, perennial constructions, NAAC, proffs, hospitals duties, mess idlis, are somethings I'll forever cherish.

Which department of dentistry attracts you the most and why?

Currently Orthodontics, no cap. Easiest yet the most intriguing. Got the physics genes from my dad, hence Ortho.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

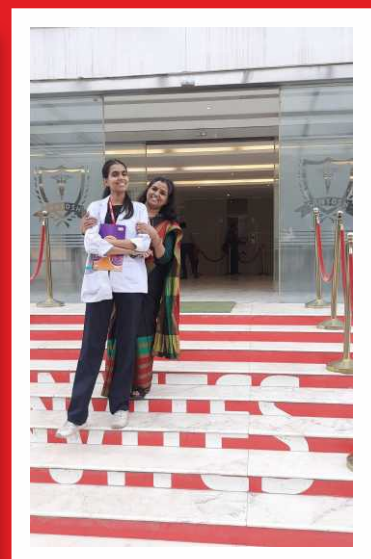

Aastha Sharma. I miss you a lot and i really hope you're at peace. Rajshree, Ria, Shubhangi, Sarthak, Phunchok. My constants. I really hope I forever stay in contact. Also my 4 juniors, with whom I vibe THE most.

Your all time favorite faculty?

Dr. Aruna- she has been my mentor throughout my tenure here. Been with my ups and downs, always pushed me to my limits, to be my best.

Dr. Chandni- coolest faculty. The first one to say 'now y'all aren't my students anymore, you are my friends'

Not to forget, Dr. Kanika mam, been like a mother to us since day one.

Dr. Nikita Kumari

How would you describe your 5 years that spent in this college?

My five years in college were transformative, marked by rigorous academics and hands-on clinical practice. I developed essential skills, built lasting connections, and discovered my passion for dentistry. This journey fostered personal growth and resilience, preparing me for a successful career in the dental field and enhancing my commitment to patient care.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Saloni has been my constant companion since the first year, and so has Ankita Saini, who was my neighbor as well.

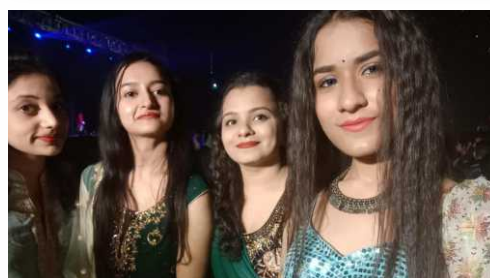

Your all time favorite faculty?

Since the very beginning, Aruna ma'am has been there for me. She supported, encouraged, motivated, and helped me in my studies as well. She was not only my mentor in academics but also in research. Her constant support made me very confident. During my internship, I interacted with Dr. Rajiv Ahluwalia. He always encouraged me and pushed me to express the talents I have.

Which department of dentistry attracts you the most and why?

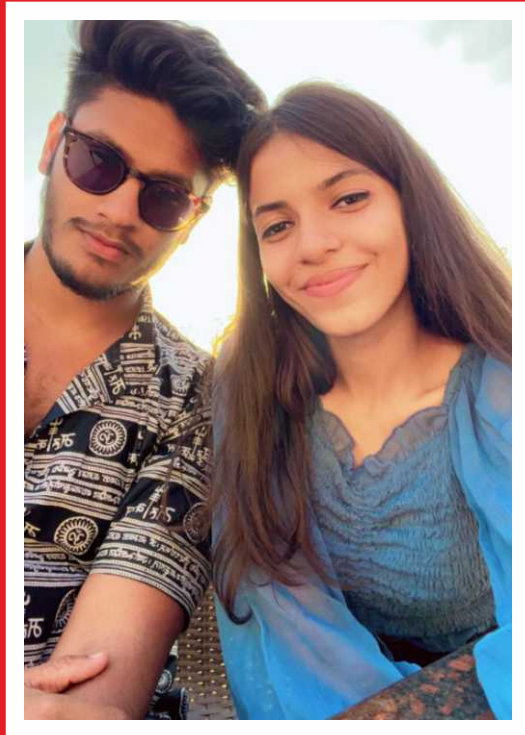

Oral surgery and cosmetic dentistry attracted me the most.

Dr. Nixon Kidangan Benny

How would you describe your 5 years that spent in this college?

Challenging yet rewarding, filled with growth, learning, new experiences, lifelong friendships, and personal and academic development.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Anushka Krishnan, met her unexpectedly and She supported me throughout these 5 years, offering guidance, encouragement, and unwavering companionship through every challenge and success.

Your all time favorite faculty?

Dr. Abhishek (OS)

Which department of dentistry attracts you the most and why?

Oral Surgery, personally most interesting and also easy to understand

Dr. Pawan Pal

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

In dental college, I unexpectedly became friends with a few classmates from different backgrounds. We connected during group projects and study sessions, where our varied perspectives enriched discussions. Late-night study breaks and shared stress during exams also brought us closer. These friendships helped me appreciate different approaches to problem-solving and provided a supportive network during challenging times, making the journey more enjoyable and fulfilling.

Your all time favorite faculty?

My all-time favorite faculty member in dental college is Dr Rajeew Gupta sir. Their ability to provide constructive feedback while fostering a supportive learning environment made a significant difference in my confidence and skills. They had a knack for simplifying complex procedures, which made them accessible and less intimidating. Their enthusiasm for teaching and genuine care for student progress truly inspired me and created a lasting impact on my approach to patient care and professional development.

Which department of dentistry attracts you the most and why?

The Department of Oral Surgery in dentistry is particularly intriguing because it combines technical skill with the opportunity to significantly improve patients' quality of life. Oral surgeons address complex issues like trauma, tumors, and facial deformities, which can have profound effects on both physical health and emotional well-being. The precision required in surgical techniques, along with the chance to build strong patient relationships during recovery, makes this field both challenging and rewarding. Additionally, advancements in technology and anesthesia continue to enhance patient outcomes, further fueling my interest.

How would you describe your 5 years that spent in this college?

My five years in dental college were a transformative journey filled with rigorous academic challenges and hands-on experiences. I developed a deep understanding of dental sciences, patient care, and clinical skills through comprehensive coursework and practical training. Collaborating with peers and faculty fostered a sense of community and teamwork. The exposure to diverse cases in clinical settings honed my problem-solving abilities and empathy towards patients. While the workload was demanding, the rewarding moments of helping others and gaining confidence in my skills made it all worthwhile. Overall, it was a period of personal and professional growth that shaped my career.

Dr. Phunchok Dolma

How would you describe your 5 years that spent in this college?

Full of ups and downs, lows and highs, success and failures and most importantly love and hate.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Being friends with people from different backgrounds and cultures that really shaped my experience. prove ones supremacy.

Your all time favorite faculty?

Oral pathology department as whole be it Dr. Neeraj sir or Dr Kanika maam. They are the most understanding and supportive of all.

Which department of dentistry attracts you the most and why?

Prosthodontics would be the one as it gives smile and one more reason for the old people to live a longer life.

Dr. Perna Sharma

How would you describe your 5 years that spent in this college?

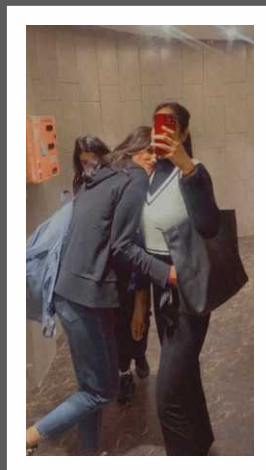

It's a roller coaster ride in this college sometimes it mesmerises you and sometimes it traumatises you though in a nutshell it's good.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Jyotsna and Himani are the unexpected frnds that I had during my college time and after meeting with them college life was so fun and easy to be honest whereas Arfa is my frnd from college's Day 1

Your all time favorite faculty?

Dr. Kanika Bhalla is my favourite faculty because ma'am is so calm , so understanding. One can literally share anything with her and legit she always help you in that. So grateful for her.

Which department of dentistry attracts you the most and why?

Endodontics as endo is my favourite subject . All the files , loupes and every instrument of endo attracts me

Dr. Priyanshi Singh

How would you describe your 5 years that spent in this college?

Good

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Rishika and Aanchal during internship

Your all time favorite faculty?

Dr Nidhi Gupta Ma'am

Which department of dentistry attracts you the most and why?

Endo and oralsurgery

Dr. Purbayan Sardar

How would you describe your 5 years that spent in this college?

There was enough sense of regret initially being miles away from home that too for the first time but eventually gained many super helpful and amicable friends, seniors and even faculties, especially my 3rd, 4th year Clinical batchmates and Internship batchmates, also gained someone with immense importance here which was beyond any of my mortal imaginations. Anyways, looking back these 5 years, I have traversed a long way maybe not the same boy as before, but definitely worth it.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Most unexpectedly I gained someone very important here RUPAL, I can for sure say we've walked through enough obstacles and debacles and managed to grow up together splendidly in my opinion. Other than that my fellow Bengali friend Subayu, Ria and Rajshree from the strenuous final year days and Deeksha, from internship days.

Your all time favorite faculty?

Dr. Abhishek sir, Dr. Anupam sir from OS, they were really friendly to me. Dr. Chandni ma'am, she always supported us in trying times. Dr Rajiv Ahluwalia sir for guiding and supporting me constantly during the editorial committee days, because of him I learned the skill to publish books and magazines..

Which department of dentistry attracts you the most and why?

Either Orthodontics or Prosthodontics because in these 2 fields we get the pleasure to pursue perfection of the smile in patients.

Dr. Rahul Goyal

How would you describe your 5 years that spent in this college?

My journey through dental college has been transformative, filled with challenges and triumphs.

1st year introduced us to the basics, continued by deepening our knowledge and igniting our passion for patient care.

3rd year brought our first clinical rotations, immersing us in real-world scenarios and allowing us to learn from experienced mentors. The last theoretical year was focused on specialization, where we explored our interests while navigating the pressures of residency applications.

The most memorable was my internship as it is a culmination of our experiences, filled with responsibilities and preparations for graduation.

Throughout these years, we forged lasting friendships and grew into compassionate, skilled individuals ready to make an impact in the medical field. Our collective journey has been a testament to resilience, teamwork, and dedication.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

I know I will be having a good bunch of friends through my journey and a gained the same

Your all time favorite faculty?

Dr. Kanika Jain
Dr. Mansi Tomar
Dr. Shreya Singh
Dr. Rajiv Gupta

Dr. Nidhi Gupta
Dr. Abhishek Singh
Dr. Mayank Singhal
Dr. Subhra Malik

Pedo and orthodontics due to their speciality which is impossible for others to do

Dr. Rajshree Radha

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

I found friends in so many people I met during these 5 years of college. My batchmates, seniors, juniors and even faculty members. But there are some special ones worth mentioning, without whom my journey would not be as much fun: Ria, Nemisha, Shubhangi, Sarthak, Rupal and Purbayan.

Your all time favorite faculty?

Dr. Kanika Bhalla mam and Dr. Nidhi Gupta mam

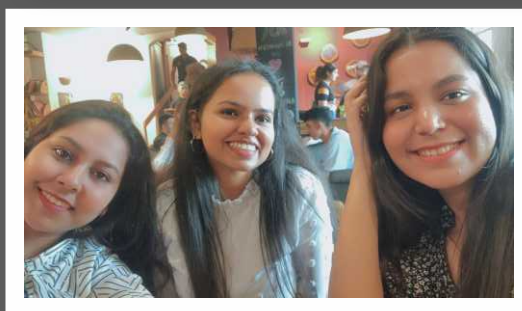

Which department of dentistry attracts you the most and why?

Department of Oral Medicine and Dental Radiology

How would you describe your 5 years that spent in this college?

These five years in college were transformative journey filled with personal growth, academic challenges and social experiences. From making friends to achieving new experiences it was magnificent.

Dr. Raksha Ray

How would you describe your 5 years that spent in this college?

Going with lots of memories

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Surbhi sweta

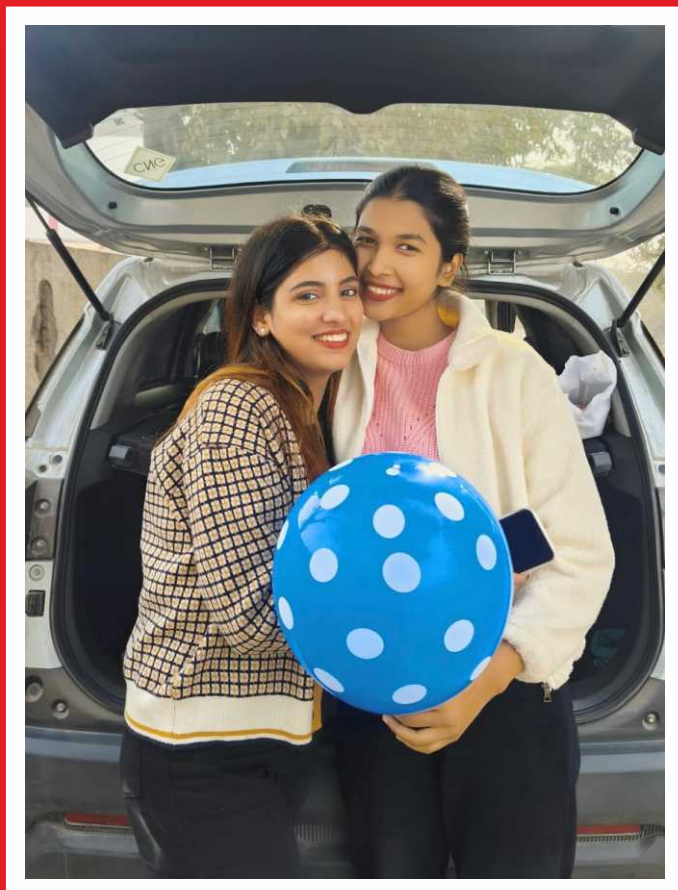

Your all time favorite faculty?

Dr. Chandani Batra

Which department of dentistry attracts you the most and why?

Endodontics

Dr. Ria Singh

How would you describe your 5 years that spent in this college?

Great

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

I found out having a lot of common in all of my friends rather the whole batch. But to name some of my friends... they'll be Rajshree Anushka Shubhangi Nemisha Sarthak Rupal Purbayan.

Your all time favorite faculty?

Dr. Kanika, Dr. Nidhi, Dr. Chandni, Dr. Shweta Bali, Dr. Mayank Singhal, Dr. Vishnu, Dr. Mridul. Because of their constant support and happy faces... seeing them everyday with a smile on their faces made my day. Their way of teaching made me understand the subjects even better and developed my interest in their respective subjects.

Which department of dentistry attracts you the most and why?

Oral pathology and Forensic Odontology because I am intrigued by the subject

Dr. Rishika Bisht

How would you describe your 5 years that spent in this college?

Quite unexpected I would say, with all the sweet and sour memories, learnings occupies the major part.

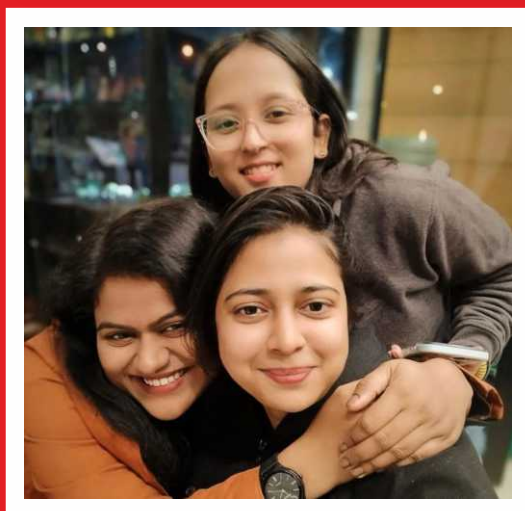

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Jyoti, Ruchika, Lata, Ankita, Aanchal, Rahul, Tanya, Priyanshi the list is never ending long but people who supported you in tough times needed this mention.

Your all time favorite faculty?

Dr Neeraj is my favourite faculty due to his unbiased behaviour towards students. He understands and support all the students.

Which department of dentistry attracts you the most and why?

Endodontics, known as the bread and butter of the dentistry is the one which took my attention in these 4 years.

Dr. Rizwana Khatoon

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

College life is such a rollercoaster of experiences. One of the coolest parts is making unexpected friends that end up becoming like family. It's like finding a hidden gem in a sea of people!

Your all time favorite faculty?

One of my favorite faculty members in college is Oral Surgery Professor Dr. Mayank Singhal. They had a unique way of explaining complex concepts, making them relatable and easier to understand. Instead of just lecturing, they often used real-life examples and stories that connected the material to everyday experiences.

Which department of dentistry attracts you the most and why?

Oral surgery department is interesting! One reason to really like it is the hands-on experience you get. You get to see some pretty intense procedures up close, and it's amazing how skilled the surgeons are. Plus, the impact they have on patients' lives is huge—helping people with pain relief, restoring smiles, and improving overall health.

How would you describe your 5 years that spent in this college?

Spending 5 years in college is challenging yet rewarding journey. The experience is marked by blending of academic course work, Practical training, Personal growth and social interaction.

Dr. Ruchika

How would you describe your 5 years that spent in this college?

This was a memorable 5 year journey I have worked on myself quite a bit and got to experience new seasons of life. I have become more interactive and self sufficient.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Rishika, Tanya, Priyanshi, Tripada, Vinay Living miles away from home, these people made this journey much more easier during tough times and I'm grateful that I met these people here.

Your all time favorite faculty?

Dr. Neeraj Grover sir

As per me he is very polite and understanding faculty and I liked his way of teaching as well.

Which department of dentistry attracts you the most and why?

Dept. of Oral and maxillofacial surgery attracts me because as a student I was always fascinated by surgeons as they are known for their perfectionism.

Dr. Rupal

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

The unexpected one or I can say the most precious one I gained is PURBAYAN . He is my partner-in crime in harmony and trying times to support, strengthen and guide me.

Your all time favorite faculty?

Dr Chandni Ma'am.she encouraged me during my final years of examination like an epitome of motivation

Which department of dentistry attracts you the most and why?

Pedo because I like to deal with Healthcare and smile of the kids.

How would you describe your 5 years that spent in this college?

It was full of ups and downs so far journey was great gained lot of friends, postings mates, learnt soo many life lessons which played significant role in shaping my life & choices.

Dr. Saloni Garg

How would you describe your 5 years that spent in this college?

Looking back, my college life was a journey that taught me valuable life skills.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Nikita and Deepshikha

Your all time favorite faculty?

Dr. Mayank Singhal and Dr. Aruna Nautiyal

Which department of dentistry attracts you the most and why?

Oral and maxillofacial surgery

Dr. Sarthak Garg

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Dr. subayu mondal - first day when I saw him, thought of him as a senior but later we became really good friends Dr. lalit and group, they were my seniors, we got posted together. I got to learn a lot from them and they always taught me clinical skills. Pradeep bhaiya - started to work with bhaiya when he joined the clg in 2023. initially never thought that we could get this much close. My best gang: Rahul Goyal, Nemisha, Rajshree, Ria, Shubhangi, Dolma. We've always enjoyed so many plans together.

Your all time favorite faculty?

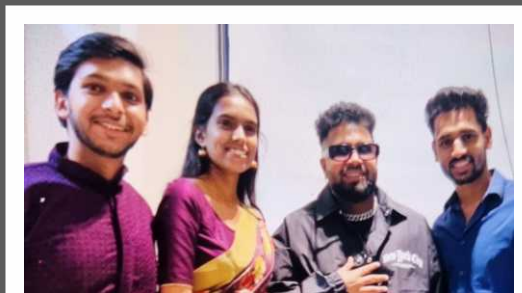

Dr. Kanika Bhalla - she was our oral pathology teacher she is one of the few faculties who have been with us since the very first day we have entered this college. She has always helped us in each and every aspect from studies to regular mentoring and has pushed us to become a doctor and particularly a good human being. Dr. Manik Tyagi- He was the general medicine professor he used to take our clinical and theory classes in third year during our hospital postings. He was one of the very highly knowledgeable general medicine professor who was really strict to those who don't know anything but to me was always nice. Dr. Rajiv Ahluwalia - he is our Dean student welfare and also head of the department of orthodontics. he will always be my favourite teacher, guide and mentor. Always learnt a lot from sir and loved to work under his guidance.

Which department of dentistry attracts you the most and why?

Department of oral and maxillofacial surgery attracts me the most in dentistry. The day I did my first extraction patient I felt like I have become a true surgeon. The staff the pgs and the patient flow all is great in this department. Learned a lot in my oral surgery postings. The day i turn back pages and read this, i hope I am an oral surgeon.

How would you describe your 5 years that spent in this college?

Words aren't enough to describe my 5 yrs in this institution. The person I was when I entered the college to who I am when I am leaving from here. I have seen an overall development in my behaviour, skills, confidence. College has always given me the platform to bring out the best in myself. Have made a lot of friends throughout these years whether it's senior or junior. Will always remember the time which we used to spend in this college during as well as after the college hours.

Dr. Shraddha Choudhary

How would you describe your 5 years that spent in this college?

My five years in dental college were a transformative journey filled with rigorous academic challenges and hands-on experiences. I developed a deep understanding of dental sciences, patient care, and clinical skills through comprehensive coursework and practical training. Collaborating with peers and faculty fostered a sense of community and teamwork. The exposure to diverse cases in clinical settings honed my problem-solving abilities and empathy towards patients. While the workload was demanding, the rewarding moments of helping others and gaining confidence in my skills made it all worthwhile. Overall, it was a period of personal and professional growth that shaped my career.

Which department of dentistry attracts you the most and why?

The Department of Oral Surgery in dentistry is particularly intriguing because it combines technical skill with the opportunity to significantly improve patients' quality of life. Oral surgeons address complex issues like trauma, tumors, and facial deformities, which can have profound effects on both physical health and emotional well-being. The precision required in surgical techniques, along with the chance to build strong patient relationships during recovery, makes this field both challenging and rewarding. Additionally, advancements in technology and anesthesia continue to enhance patient outcomes, further fueling my interest.

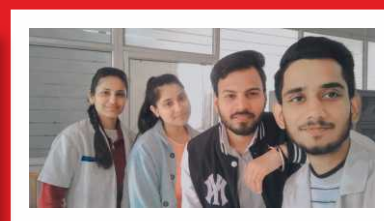

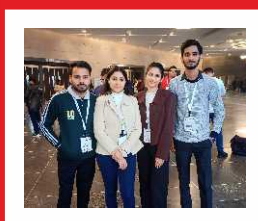

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

In dental college, I unexpectedly became friends with a few classmates from different backgrounds. We connected during group projects and study sessions, where our varied perspectives enriched discussions. Late-night study breaks and shared stress during exams also brought us closer. These friendships helped me appreciate different approaches to problem-solving and provided a supportive network during challenging times, making the journey more enjoyable and fulfilling.

Your all time favorite faculty?

My all-time favorite faculty member in dental college is Dr. Mayank singhal sir. Their ability to provide constructive feedback while fostering a supportive learning environment made a significant difference in my confidence and skills. They had a knack for simplifying complex procedures, which made them accessible and less intimidating. Their enthusiasm for teaching and genuine care for student progress truly inspired me and created a lasting impact on my approach to patient care and professional

Dr. Shruti Sharma

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

The unexpected friends, I gained during internship when our clinical posting batches are made with random students from our class batch.

Your all time favorite faculty?

My all time favourite faculty is Dr Seema maam in 1st year she teaches us DADH. She was a very sweet person and kind person and she explains everything in an easy and fun way. That day was very heartbroken when we got to know that she's leaving our college.

Which department of dentistry attracts you the most and why?

The orthodontics has always been my favourite subject because, it combines art and science to improve to patients smiles and overall dental health.

How would you describe your 5 years that spent in this college?

"My 5 years of experience was full of ups and down. In first year I was adjusting to college life, building friendships and exploring different subjects and when I entered in 2nd year and this year is went in lockdown during pandemic and our classes held through zoom classes which was very stressful period sitting at home and taking online classes ,and in 3rd year we all are excited to attend our hospital posting and this year is my favourite year and than most difficult year is 4th year in which we have to give exams of all main dentistry subjects and that was the huge pressure after 3rd year and than our internship in this year the excitement was to do more of clinical work and best part there is no exams pressure.

Dr. Shubhangi Mohan

How would you describe your 5 years that spent in this college?

Stress, construction, inspection

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

whom I met on the first day of college... even before that she might not remember at administration cell ...so yeah ...""in the end it's always the one you met on day 1

Your all time favorite faculty?

Oral pathology- because of kanika ma'am, neeraj sir and shreya ma'am...best ever lectures in whole 4 yrs where I actually studied...also they really got their student's back.

Which department of dentistry attracts you the most and why?

"Oral surgery, because I get to know ...yeah I don't study at all

Dr. Sofia Shamsi

How would you describe your 5 years that spent in this college?

Blessed

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Tripada , Tanya , Priyanshi , Ruchika, Rishika ,Vinay, saloni Nikita, subayu, Ankita Saini , Deepshikha , Rizwana , Shruti

Your all time favorite faculty?

Oral and maxillofacial surgery , because we get to do many extractions under guidance

Which department of dentistry attracts you the most and why?

Dr.Mayank (Dept. of orthodontics)

Dr. Subayu Mondal

How would you describe your 5 years that spent in this college?

A symphony of self-discovery, transformative growth, and confidence buildup. Forged resilience through emotional upsides, lifelong friendships, and mentorship from inspiring teachers. Cherished moments with 'jigar ka tukda' (friends), laughter-filled last bench stories, and countless memories within and beyond campus walls.

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

Tanya, Deepshikha, Saloni, Rupal, Purbayan, Vinay first I didn't think our vibes will match but later we became best pals.

Your all time favorite faculty?

Dr Kanika, Dr Neeraj grover

Which department of dentistry attracts you the most and why?

Paediatric dentistry because I think it is the most challenging as we have to deal with little mischievous kids and I love to handle them.

Dr. Surbhi Grover

How would you describe your 5 years that spent in this college?

The best years of my life

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

My internship friends were the most unexpected friends and obviously it turned great.

Your all time favorite faculty?

Dr. Mayank singhal

Which department of dentistry attracts you the most and why?

Endo and cons

Dr. Sweta Singh

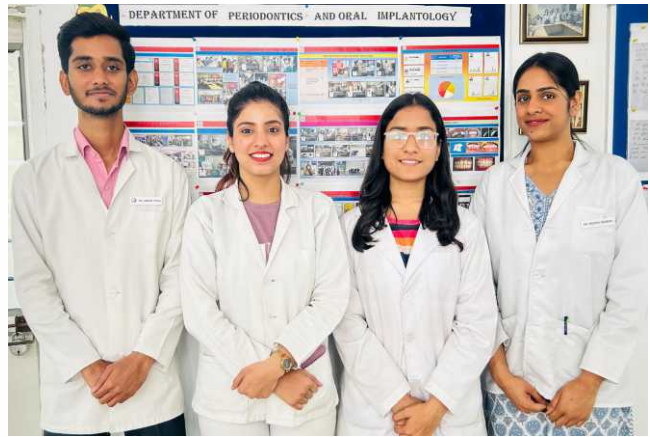

How would you describe your 5 years that spent in this college?

My five years in dental college were a transformative journey. I developed a deep understanding of dental sciences, patient care, and clinical work. Collaborating with peers and faculty fostered a sense of community and teamwork. Overall, it was a period of personal and professional growth that shaped my career.

Which department of dentistry attracts you the most and why?

The Department of Orthodontics in dentistry is particularly intriguing because it is a fascinating field that combines art and science to improve

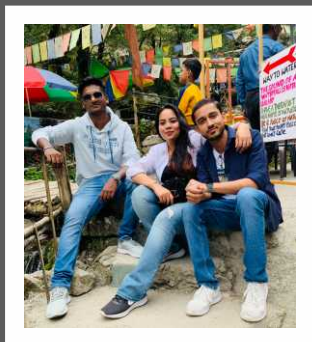

Your all time favorite faculty?

My all-time favorite faculties in the college are Dr. Nidhi Gupta ma'am & Rajiv Ahluwalia sir. Their enthusiasm for teaching and genuine care for student progress truly inspired me and created a lasting impact on my approach to patient care and professional development.

They have always supported me, motivated me in my academics & co curricular activities.

Dr. Tanya Singh

Who were the unexpected friends or companions you gained in the duration of your college life? And how?

The unexpected friend which I have gained through my 5 years in this college is Pawan. He's the one I haven't talked to for the initial 4 years and suddenly in internship he became one of my best buddy. Not only he helps me with college but also helps to guide me through the things I face outside the college. He's a person with a jolly and hardworking personality. I'm thankful to him for being my mate.

Your all time favorite faculty?

Fav faculties are Dr. Kanika and Dr. Neeraj. I want to express my heartfelt gratitude for their guidance and support throughout my entire graduation. Their wisdom and expertise have made a significant impact on my growth, and I'm truly thankful for the time they've invested in me. They're more than a faculty; they're more of a guardian.

Which department of dentistry attracts you the most and why?

Oral and maxillofacial dentistry is an interesting field because it combines dentistry, surgery, and medicine. The complexities of cases it deals with make it more interesting. It is the only branch of dentistry which deals with the emergencies just like the medical field.

How would you describe your 5 years that spent in this college?

My five years in college have profoundly shaped my growth. I've developed essential social skills, personal resilience, life skills, and valuable connections, both academically and personally. The first year was a whirlwind of excitement and nerves as I moved to a new city, but the support from my faculty, especially Kanika ma'am, helped ease my homesickness. The first six months flew by until COVID-19 changed everything. That period was challenging, particularly taking exams during lockdown, but it taught me adaptability. Finally, the fourth year solidified my understanding of dentistry. Juggling eight subjects was daunting, but with hard work and support from friends and faculty, I excelled in my professional exams. The challenges I faced throughout these years prepared me for my internship. At first, it was hard to believe I was finally a doctor, but deep down, I felt a profound sense of pride. Overall, my college experience has been a roller coaster of emotions, but every late night was worth it for the title I now carry.

Dr. Tanya Varshney
