They say you can't buy happiness but you can certainly brew it.

For the past sixteen months my office has undergone a periodic recurring transformations. The serious hum of university administration pauses the spreadsheets are tucked away and the air fills with the aroma of fresh tea and the undeniable energy of our brightest minds. **"Tea with Toppers"** has been more than just a recurring event on the university calendar; it has been a sanctuary of ideas, a celebration of grit and a testament to the power of mentorship. This flagship initiative of SDU was born from a simple, slightly mischievous curiosity: What does the future of healthcare actually look like when it's sitting on my table debating which tea snack to pick up first.

This book is a curated journey through those afternoons. Within these pages you will find the faces of our academic trailblazers—those who topped their subjects through relentless grit and a touch of genius. But look closer and you will see the proud often beaming smiles of the Mentors, Department Heads and Deans. Their presence is a re-minder that while the students scale the peaks it is the faculty that provides the steady bedrock (and occasionally the best jokes).

Moving beyond the formal corridors of the Vice Chancellor's office to sit across from our students has been the highlight of my tenure. We have navigated complex theories and shared the quiet joy of earned success all while rediscovering that wonderful, childlike wonder that asks "What if?" and "What next?" I have learned that while our toppers are masters of intricate sciences they still possess the infectious delight of a student realizing their Vice Chancellor and HODs are just as curious about their journey as they are.

To our students: You are the "Toppers" not just because of your grades but because of your spirit. Let this book remind you that your university celebrates you and believes in your potential to change the world. Thank you for keeping us on our toes and reminding us why we do what we do.

To our faculty: Thank you for nurturing the spark that became a flame and for ensuring the tea never got cold during our longest debates.

As you flip through these moments, I hope you feel the warmth of the steam and the spark of the ideas. Here is to the brilliance of our youth, the wisdom of our teachers and the unique alchemy that occurs when we stop to share a simple cup of tea.

May this collection inspire every reader to seek excellence, value mentorship and remember that sometimes, the most transformative lessons are learned over a simple cup of tea.

Warmly,

Dr V N Mahalakshmi

Vice Chancellor

Santosh Deemed to be University

Dear Students,

Excellence is not a matter of chance; it is the result of high intention, sincere effort, intelligent direction and skilful execution.

Tea with Toppers - A University initiative to recognize the students who have excelled academically, to acknowledge their devotion and to felicitate them over a cup of tea with their teachers, mentors, Dean and Vice Chancellor.

It was a rare chance to listen to their success stories, get acquainted with their intellectual curiosity, resilience and indomitable spirit. It was also an opportunity to inspire them to continue their academic journey with the same zeal, to build upon this success and continue pushing the boundaries of their potential.

Such events truly motivate the fellow mates who are galvanized to do "that extra bit" which would make them eligible to be in the elite group of Tea with Toppers. They set a tone for high academic standards within our fraternity and guide them to be future leaders and innovators.

Dr Alka Agrawal

Dean- Faculty of Medicine

Santosh Deemed to be University

FOREWORD BY DEAN, FACULTY OF DENTAL SCIENCES

As educators, it is our privilege to witness young minds evolve into capable professionals and future leaders of healthcare. Recognition of merit is an important tradition, for it motivates excellence, strengthens institutional pride and encourages healthy academic aspiration among peers.

*In halls where **dreams and knowledge** meet;*

***Young minds** have walked with steady feet.*

*Through **countless** hours, through silent nights;*

*They chased their **goals and reached** new heights.*

*Not marks **alone define** their way;*

*But **strength to rise** each passing day.*

*With **healing hands and hearts** that care;*

*They learned to **serve, to lead, to dare.***

May every name these pages hold;

***Inspire** new journeys yet untold.*

***For excellence** is not a prize alone;*

*It is the light by **effort grown.***

I congratulate all the awardees and their mentors for this remarkable accomplishment. May this book stand as a lasting testimony to the spirit of scholarship and the pursuit of excellence that define.

Dr Akshay Bhargava

Dean, Faculty of Dental Sciences

Director Research

Santosh Deemed to be University

It is with immense pride and great pleasure that I present the commemorative booklet of “Toppers and Teacups” an initiative thoughtfully compiled by the Internal Quality Assurance Cell to honour and celebrate the outstanding academic achievements of our Medical and Dental students.

Academic excellence is not merely the attainment of high scores; it is the reflection of discipline, perseverance, dedication and an unwavering commitment to learning. The students featured in this booklet have exemplified these qualities through their consistent hard work and determination.

Recognizing and appreciating student achievements plays a vital role in fostering a healthy academic environment that motivates young minds to aspire higher and perform better. Also celebrating these successes not only boosts confidence among achievers but also inspires other fellow students to pursue their goal. Through this initiative we aim to cultivate a culture where merit effort and commitment are acknowledged and encouraged.

This booklet is more than a record of academic success; it is also a reflection of the institution’s continuous pursuit of quality education, holistic development and student encouragement and highlights the collective efforts of our dedicated faculty members, mentors and parents whose guidance and support have significantly contributed to their success.

I extend my heartfelt congratulations to all the overall and subject-wise toppers for their commendable achievements. May their accomplishments inspire many more students to strive for excellence in academics and beyond.

I wish all our students continued success, bright opportunities and a future filled with achievement and service to society.

Dr Dakshina Bisht

Director IQAC

Santosh Deemed to be University

ABOUT THE EVENT

“Tea with Toppers” is a prestigious academic recognition programme conducted to felicitate and celebrate the outstanding performance of overall and subject-wise toppers from the Medical and Dental programmes.

The commemorative booklet has been compiled by the Internal Quality Assurance Cell (IQAC) as part of its commitment towards promoting academic excellence and celebrating student achievements.

The programme aims to:

Recognize academic excellence

Encourage healthy academic competition

Inspire fellow students

Promote interaction between achievers and faculty mentors

Foster a culture of dedication and perseverance
